

### Letter of Appreciation to DSCI Vulnerability Disclosure Program

Dear Sebastián Alba Vives,

On behalf of DSCI, we extend our sincere gratitude for your outstanding contributions to our Vulnerability Disclosure Program (VDP). Your efforts in identifying and reporting security vulnerabilities have showcased your dedication to help us further secure our systems and protect our infrastructure.

We regret that we would not been able to give financial rewards under the Vulnerability Disclosure Program. However, we highly value your commitment and expertise to detect and report the issues accurately. We would like to express our gratitude through this letter of appreciation.

Your role as a security researcher is critical in the ever-changing world of cyber security. Your commitment to improving digital safety is admirable, and we are inspired by experts like you who are actively crafting a more secure online environment.

Once again, we want to reiterate our profound appreciation for the outstanding work you have done.

Best regards,  
Vinayak Godse  
CEO, DSCI
